McMillen Joins T&T Bisso

HOUSTON (June 5, 2009) – The T&T Bisso Response Network, an industry leader in vessel emergency response services, is pleased to announce the addition of DeeAnn McMillen to its Oil Pollution Act of 1990 (OPA 90) management team.

McMillen is a proven industry professional with 19 years of experience assisting clients with regulatory compliance. She has spent the previous nine years focusing on vessel emergency response services, OPA 90 and state regulatory compliance.

“Her experience will help guide T&T Bisso’s continued growth in the U.S. vessel services market,” said Mauricio Garrido, the company’s general manager of the Americas & Europe.

Formed in 2005, T&T Bisso is a stand-alone response contractor servicing the maritime, shipping and offshore energy industries. T&T Bisso combines the resources and experience of T&T Marine Salvage, which was founded in 1957, and Bisso Marine Company, founded in 1890. T&T Bisso’s worldwide response network includes firefighting systems, inert gas generators, nitrogen generators, ship-to-ship pumping and lightering systems, pulling systems and diving systems.
